

SAFe EPIC to Feature Translator for Jira

Cprime Apps has been rebranded as Anova Apps. Please note the only effect is the company name - all of our products' names, logos, functionalities, support, etc. is exactly the same. The new location to our documentation space is <https://anovaapps.atlassian.net>.

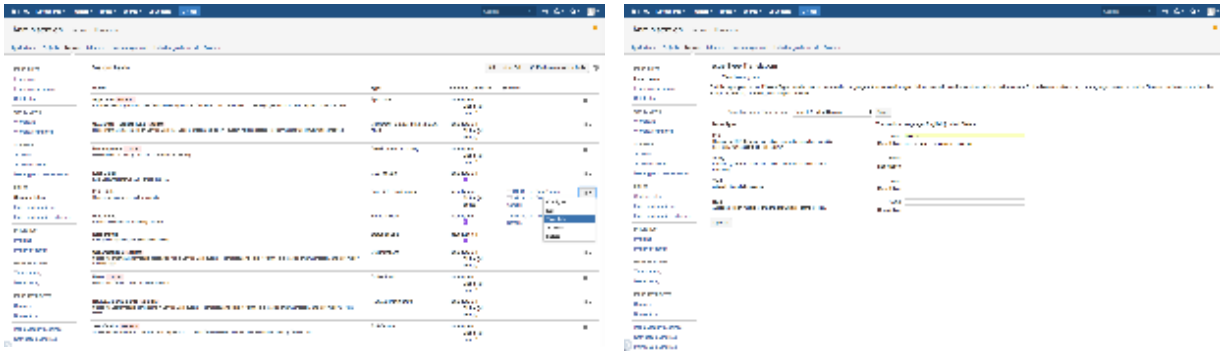

SAFe EPIC to Feature Translator for Jira

SAFe Epic to Feature Translator for Jira (E2F) helps complete the SAFe implementations by translating native Jira naming ("epic") into terminology used in SAFe ("feature").

The plugin is essentially a translation bundle and we are working to add even more configurability in its future versions to provide more flexibility into your SAFe Jira.
